Enter virtual password before or after the real password, it can be unlocked.

FCC STATEMENT :

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

Warranty Card

- Please fill out the warranty card and keep it well.
- The warranty period of this product is 18 months.
- The following belongs to the scope of non warranty:
 - The warranty has expired.
 - Damage occurred during or in relation to non-routine and/or unauthorized disassembly.
 - Failure to provide a valid proof of purchase when requesting service or repair.
 - Damage occurred as a result of natural disaster (including earthquake, fire, flood etc.)
 - Damage occurred due to unexpected factors or man-made reasons (including mis-operation, improper insert or pulling, hauling, bumping, improper voltage input and others)
- We will charge for the repairing if it is out of warranty.
- When the product breaks down, ask your local dealer for repair and write out specific information below.
